

Inc.

EDL-22™

the complete diesel fuel additive! Enhances combustion; eliminates water, carbon, sulfur and other related fuel problems.

ment is a total concentrated
ed to cope with the negative
s diesel fuel market.

esel and other distillate fuels
ncrease the yield from all
sulting in the use of certain
acceptable for use as a #2

sition of diesel fuel effects
quality, volatility, cloud point,
ion stability and BTU value.
the power, fuel economy,
on, starting and smoke
owered equipment. EDL-22
caused by inadequate upper
eliminates corrosive wear by
when present forms sulfuric
fuels.

esel fuel additive especially
stomers with the ultimate in

cars, trucks, buses, tractors,
ng, oil field, industrial, and all
quipment.

d by initially blending EDL-22
until optimum performance
ys/4000 miles) then reduce
treatment level.

ts 250 gallons fuel.

ts 600 gallons fuel.

eadily soluble in diesel fuel,

USERS BENEFIT

- * INCREASED POWER
- * ELIMINATES WATER
- * IMPROVES FUEL
- * COMBATS SULFUR
- * KEEPS INJECTORS
- * AIDS SMOOTH
- * UPPER CYLINDER
- * REDUCED EXHAUST
- * ELIMINATES CORROSION
- * REDUCES ABRASION
- * INHIBITS BACTERIA
- * INHIBITS FUNCTION

TYPICAL TESTS

Form
Color
Flash Point (ASTM D5)
Viscosity CST at 100°F
SUS at 100°F
Cloud Point (ASTM D2)
Pour Point (ASTM D97)
